**CONNECTIONS REQUIRING TAP TO MAIN**

Single family dwelling and duplexes can be installed by the City of Dallas at City Contract fees. (See above)

Individually owned and operated business or a church requiring a 1 inch or less will be installed by the City of Dallas at City Contract fees. (See above)

All others will be installed by developer's bonded contractor plus inspection only fee of \$275.00 per tap payable to the City of Dallas.

All customers have the choice of having utility services installed by a bonded utility contractor plus an inspection only fee of \$275.00 per tap payable to the City of Dallas.

**CONNECTION CHARGES: WASTEWATER**

The City of Dallas installs wastewater connections for all single family dwellings and duplexes and for individually owned and operated business and churches requiring a 1 inch or smaller water service.

Laterals installed by P-Contract (Lateral Conversion fee) \$275.00

Laterals installed by City Contract (Lateral Conversion fee) \$2343.00

Fees for wastewater connections listed below will be quoted after a field investigation.

- A. Additional taps or relocation of existing service.
- B. Service will be located to a main located in an easement.
- C. Service requires a deep-cut connection.

All others will be installed by bonded contractor at a fee of \$275.00 per connection.

Water meters installed by the city contractor can take up to 8 weeks or longer from the date the customer calls to set up an appointment for the meter installation.
