

PLUMBING AND MECHANICAL
INTERPRETATION MANUAL

CODE: 2003 IRC, IPC, IMC and IECC

DATE:

CODE REF:

6/20/2006

SUBJECT: Product Approval Check List

Question: How do I get a new product or material approved for use in the City of Dallas?

Answer: Submit the following Information:

1. Letter requesting approval of the product(s).
2. Submit testing data demonstrating compliance to the appropriate code.
 - a. Testing Reports
 - b. ICC Evaluation Reports
 - c. Third Party approvals.
3. Letters of other jurisdictions with-in the State of Texas that has approved the use of this material or product.
4. Any other supporting documentation to support the approval process.

After the above information is submitted and has been evaluated a letter of approval or rejection with the reason for the rejection will be issued to the person, firm or corporation requesting approval.

Upon receiving approval for the product or material you will be asked to provide four sets of information, samples or training material for each for our four districts offices.
